

Arjun Mehta

Software Engineer - Backend Focus

Summary: 4 years building scalable backend systems in Go and Python.

Experience:

Backend Engineer, CloudScale Systems (2021-Present)

- Built microservices in Go handling high-throughput API traffic
- Optimized SQL queries across PostgreSQL clusters
- Managed CI/CD pipelines using GitHub Actions and deployed to GCP
- Introduced RabbitMQ for async task processing

Software Engineer, StartupHub (2019-2021)

- Developed REST APIs with Flask
- Wrote unit and integration tests, improved test coverage to 85%

Education: B.Tech Computer Science, IIT Delhi

Skills: Go, Python, Flask, PostgreSQL, Docker, GCP, RabbitMQ, REST APIs, CI/CD
